Proficient in identifying and exploiting vulnerabilities through comprehensive manual and automated testing methods. Strong background in vulnerability assessments, web app pentesting, and business logic flaw exploitation. Eager to contribute to a fast-growing security team and deliver high-quality penetration tests while mentoring junior resources.

Internships

- Web App Penetration Testing, Lunacal.ai** **Dec'2024 - Present**
As a Web App Penetration Testing Intern at Lunacal, I was responsible for identifying and reporting security vulnerabilities in the company's platform. I conducted manual and automated security tests.

Education

B.Sc, Mathematics 2020-24
Dr. Bhimrao Ambedkar University, Agra, CGPA – 7/10

12th (Senior Secondary Examination) 2020
CBSE Board, 60%

10th (Secondary Examination) 2019
CBSE Board, 84%

Skills

- Penetration Testing Skills - WebApps, and API Testing, Vulnerability Assessment & Reporting, Proof-of-Concept, Exploit Development, Black Box, Gray Box Testing, Business Logic Exploitation, XSS, IDOR, Information Disclosure, Lateral Movement & Data Exfiltration Simulations.
- Tools & Technologies: Burp Suite Pro, OWASP ZAP, Nessus, Kali Linux, Bash Scripting, Postman, SQLMap, API Testing

Trainings & Certificates

Cyberx Technologies, Kanpur **Aug 2022-Aug 2023**
As part of B.Tech. Research Project (6th Semester, team of two), we used techniques like Otsu's method and a Multi-Layer Perceptron, to achieve an accuracy of 95.6% in detecting legible Handwritten Numerical Digits. I was responsible for the GUI for the application that I developed using J2SE (Java).

Certified Ethical Hacker (CEH), EC-Council **July 2024-July 2027**
Trained in ethical hacking, penetration testing, and vulnerability assessment using industry-standard tools.

Languages

- Hindi
- English

Achievements

- Bugs Found - 5 XSS, 4 IDOR, 2 Dependency Confusion, 4 Information Disclosure, 2 Business Logic, 2 Open Redirects
- Also found a bug in the State of California Government (ca.gov).

Hobbies

- I just love poking into webapps to find something unusual and make it a bug.
